October 14, 2021. There are over 10 Desktop Earth alternatives available for various platforms including Windows, Mac, Android, iPhone, and Android tablet. On October 10, 2019 the Desktop Earth developer company announced release of the version of Desktop Earth 7.0 for Windows OS, and also for Mac OS. Desktop Earth can be used for free to create panoramic images in real time and to edit photos using photo editors such as Lightroom, Photoshop, and GIMP.
