Gesundes Leben Are you pregnant and suffering from frequent migraines? Do you want to feel better again? Say goodbye to your migraines with microcurrent therapy. This system uses galvanic stimulation to improve vascular health. It can be used on any part of the body, including the scalp. The microcurrent therapy is delivered with the help of a device that sends gentle electric currents into the skin. In this way, the skin, muscle tissue and bone tissue are stimulated. The microcurrent therapy involves three levels of electrical stimulation: Level 1 is the lowest level, which provides a relaxing sensation. level 2 is the therapeutic level, which encourages the body to regenerate and promotes health and healing. Level 3 is the highest level and is the most stimulating. It can be used for patients who wish to fight illness and feel better. The lithium ion microcurrent therapy works by improving the blood flow and the body's ability to heal itself. It is suitable for patients who suffer from chronic ailments such as migraines and fibromyalgia. In addition to the microcurrent therapy, your doctor may recommend other treatment options for your chronic conditions. These may include: Vibroacoustic stimulator Acupuncture Bio-Energetics Homeopathy TENS/
