I need to insert a List of type U into the List of type T, and the same for the Dictionary. How can I do that? What I've tried so far: foreach (var i in dictionary) { i.Value.Add(element); } This throws the exception: An unhandled exception of type 'System.NullReferenceException' occurred in PresentationFramework.dll Additional information: Object reference not set to an instance of an object. When I do it this way: foreach (var i in dictionary) { List l = (List)i.Value; l.Add(element); i.Key = l; } The problem is, that i.Key must be a Key of type T. What do I do? A: To get the list to be of the same type as the dictionary (presumably), change this: public Dictionary> ByDictionary to this: public Dictionary>

What's New in the?

With Markup Import, AutoCAD can import the entire content of an existing drawing and make changes directly on the drawing. You no longer need to export the drawing to a new file first and then reimport it. Just import your drawing into the new drawing and you're done. You can then either make a copy or make a note of all the changes you make in the new drawing. Markup Assist is a new tool for drawing reviews. Markup Assist allows you to export and import annotated drawings, and seamlessly move annotations between drawings in the same set. The annotations can be on paper or PDFs. Help for Hand-Drawn: Drawing assist tools for hand-drawn drawings make it easier to draw with pen and ink. The new tools can also open and edit scanned drawings. Help for Picture Editing: New simplified user interfaces for Windows and Mac. . Smart Tags and Commands: Get suggestions for what you might want to tag in your design. Enhanced drawing templates for 2018 New drawing templates are easier to create with the new dialog box, and are made from a selection of blocks. These are the blocks that will be automatically inserted into your drawing when you insert them. For example, when you insert the MText block into a drawing, the MText block will appear on top of the text, which is a part of the drawing template. New drawing templates for Aerospace: New drawing templates for Aerospace now include more blocks, commands, and text properties. Drawings now save using the latest version of AutoCAD. A new AutoCAD is available with new technical features for the printing, multimedia, and web printing and publishing segments of the industry. The basic installation of AutoCAD 2019 is required to use the new features. AutoCAD 2019 Download AutoCAD 2019 Release Notes AutoCAD 2019 is a new release of AutoCAD.
