Unravel the mystery of the underworld! Lily, whose objective is to get rid of the ghost of a young girl as soon as possible, gives chase after a ghost carrying a part of her body in an effort to destroy it. And while she does so, there lies a greater mystery about the urban legends she encounters!

Description An eroge about a Japanese cafe, where all the past and present employees work together as a team while facing a myriad of threats in this high-octane RPG. You start the game with a small business that relies heavily on Mary, a red-headed ghost who can shoot fire. In a certain stormy night, you get a mysterious girl, Lily, who is lost, and she asks to let her stay at your shop. Unfortunately, she appears in front of Mary and escapes when she sees Kiri. Lily returns at midnight and tells you that a woman in a white uniform found her unconscious in the street. The woman said that she was a stranger. A week goes by and the now familiar ghosts appear from time to time, including a three-headed monster. In front of your eyes, the girl keeps on disappearing. You still don't know what's going on. You wonder if it would be better to let the girl stay in the shop, but Mary advises that you should let her go. At a certain point in time, you remember your ancestors, and you realize the events they went through. At the same time, you find out that the girl is related to you. A glimpse of the past is so close. A truth you did not know comes into light. Back in your days, when you had work, you were the only ninja in the Hattori ninja clan, who were entrusted with protecting the king. But in the end, the Hatt
