Any ideas? A: Require_once() is a function to look for the file, so I suggest you make sure the file is there (and is called correctly). Instead, use require("skins/bootstrap.php"); require("images/logo.png"); See also PHP require_once() vs. require(). Q: Parse the text for sum or avg Is there a way to parse the number for the sum or avg using Regular Expression in Java? I'm using it for this purpose: private int sum(String text) { int sum = 0; String regex = "\\d+"; StringBuffer sb = new StringBuffer(); try { Pattern pattern = Pattern.compile(regex); Matcher matcher = pattern.matcher(text); //If the string is empty.
