Apocalypse - Game.Q: Checking if there is a value before saving the array

Let's say I have an array in my route to collect data from the user. I have the

user values in array: \$account = \$this->account; //\$data = \$this->data; and

\$data is what the user posted data via a form: \$data['fields'] = array(); What I

need to do is validate the data when user is trying to fill in the form to make

sure it does
