A new way of thinking. On the Brainwave Zone you can find a variety of music, meditations, and moods to pick from. Our brainwave meditations are a combination of audio meditation, mental acupuncture, brainwave entrainment (binaural beats), and brainwave nondirectional sound to help calm the mind, encourage thinking, focus, and relax. Our moods are created to relax, energize, and creative thinking. At the Brainwave Meditations Zone, we focus on helping individuals physically and mentally, not only physically and mentally. It is through those efforts that we live the lives we live. More information available at Have you ever wanted to feel like you're in a meditative state without actually being in a meditation state? Have you ever tried to learn a new language, and found yourself lost and stuck without even trying to learn anything? Have you ever studied harder, but your grades never kept up? Have you ever had a learning experience in your life, but never applied what you learned to your life? Have you ever wished you could accomplish more with your life than you have? Our brainwave meditations are a great tool to use to work through the mental blocks that keep us feeling like we're stuck. You will see results with our brainwave meditations, but your goals will keep increasing with time. Mental stress limits how much we can accomplish in life, and it will also limit our success in getting a job, keeping a job, making a living, achieving goals, and creating more opportunities. We have designed our brainwave meditations to help you feel less stressed, so you can accomplish more in your life. To experience them, all you have to do is get into the Meditations Zone. When you enter into the Brainwave Zone, you leave your usual stress behind. You will feel less stressed, and it will feel like you're operating in a different mode that's super focused. It's like taking a mental vacation to that place you should be, and it's
